Riverview High School Industry Certifies Students in Adobe

Sarasota Schools have implemented the highly sought after Adobe Certified Experts (ACE) certification program. With the ACE program, Sarasota Students at the high school level can become industry certified in one or many Adobe software applications. With the ACE certification or multiple certifications, students are allowed to put the Adobe logo on their business cards. Additionally, industry seeks out individuals with this highly sought after certification.

What is an an Adobe Certified Expert (ACE)?

An Adobe Certified Expert is a person who has demonstrated proficiency with one or more Adobe software products. To become an ACE, you must pass one or more product-specific proficiency exams and agree to the ACE terms and conditions.

Sarasota has three Adobe Certified Expert Instructors called ACE/I. This is a real credit to our district and is one of the few districts in the United States the have this many ACE/I instructors. Additionally, one of our ACE/I instructors is also recognized as an Apple Distinguished Educator. An Apple Distinguished Educator is an instructor that has created innovative and unique program that ensures student success and achievement. With these programs, Sarasota has created an Adobe Training and certification center only available to our High School

students here in Sarasota high schools. With Federal Perkins Grant funding, schools receiving this grant funding for Career Technology Education (CTE) must have students becoming industry certified by 2009. With the ACE certification program now in Sarasota high schools, Sarasota has met this requirement by 2007. This ensures our continual Federal Perkins Grant funding for our important CTE.

The following are students are who are the first students in Sarasota who have become ACE certified. We are very proud of these students.
