

Date: _____

Dear Student and Parents,

This is an assignment for a grade. Please acknowledge that you and your parents have seen the video of Fusion 360 CAD running on a browser and on their Chromebook assigned by school.

The reason for this letter is to inform you that your student can complete their Fusion CAD assignments and projects at home or wherever your family might go, as long as they have an internet connection.

I appreciate your support and acknowledgement of this wonderful opportunity to use the powerful Fusion 360 software anywhere you have an internet connection.

Sincerely,

Richard A. Platt
